About ACE Mentor Program of Indianapolis

The ACE Mentor Program is a unique partnership among local high schools and design and construction professionals. The ACE Mentor Program creates opportunities for architects, engineers, and construction managers to interact with interested high school students and encourage them to pursue careers in the construction industry through mentoring and scholarship awards.

Our mission is to engage, excite and enlighten high school students to pursue careers in architecture, engineering, and construction through mentoring and to support their continued advancement in the industry. ACE Mentor Program is now the construction industry’s fastest-growing high school mentoring program, reaching over 8,000 students annually.

In the ACE sessions, students meet with construction industry professionals who fulfill the role of mentors, guiding the students through the various facets of the design and construction process. The objective of the sessions is for the students to learn basic concepts about the planning and design of the built environment, to open their eyes to the world around them, and to prompt them to ask questions about things they see in buildings, on bridges and streets or elsewhere in their environment. Beginning with just two schools, 40 students, and 32 mentors, the program has flourished into a highly-sought out program within Central Indiana. In 2016 we awarded $56,000.00 in scholarships for Indianapolis youth. In ten years, the ACE Mentor Program of Indianapolis has awarded $454,000 in scholarships to deserving Indianapolis-area students. Since inception, ACE nationally has awarded over $14 million in scholarships to promising participants.

Practicing professionals are attracting young people to real professions. Who better to inspire a new generation of young people to start careers in an industry than the professionals currently shaping it?

ACE uses working professionals to reach job seekers for the following vocations:
- Architects
- Interior Designers
- Landscape Architects
- Mechanical, Structural, Electrical, Civil & Environmental Engineers
- Construction Managers

This is an education that goes well beyond textbooks.
By working with real professionals in real work environments, ACE students receive an invaluable hands-on education — they learn to understand the day-to-day workings of a business by living it, experiencing it, not merely reading about it!

Thanks to you, as of 2016 the Indianapolis ACE Affiliate has awarded $454,000.00 in scholarships!

2015-2016 Program Data
109 Students Participating
32 Scholarships Awarded, totaling $56,000.00
67 Mentors from 37 different local design/construction firms

Scholarship Awards Presentation Dinner Sponsorship Opportunities:

Named Scholarship Sponsor - $4,000
I would like to have a scholarship given in my name to a deserving ACE student entering college with aspirations of a career in architecture, construction or engineering. I will receive a table for eight, retaining five seats for my use and donating three seats for a student and their guests. Sponsorship receives logo placement in printed materials, oversize presentation check, slide show presentation, website, mention at event, photo opportunity with student recipient for your companies marketing purposes and introductions for possible internships.

General Fund Scholarship Sponsor - $2,000
I would like to purchase a table for eight, retaining five seats for my use and donating three seats for a student and their guests. Sponsorship receives logo placement in printed materials.

Table Sponsor - $1,000
I would like to purchase a table for eight, retaining five seats for my use and donating three seats for a student and their guests. Sponsorship receives name recognition in printed materials.

Student Sponsor - $375
I cannot attend but would like to sponsor a student and their guests for this amazing event.

Individual Seat - $125
I would like to purchase individual seats for this event.
