

VPS Architecture is a WBE certified firm of proven design excellence, committed to client service and environmental leadership. We offer our clients a hands-on approach to creating environments that balance design goals with budget and time parameters. Our process addresses building design holistically where all aspects are harmoniously integrated: the site and landscape, exterior and interior architecture, furniture selection and high performance building systems.

Based in Evansville, Indiana, VPS Architecture offers expertise in K-12 and Higher Education Design, Institutional and Cultural Facility Design, Library Design, Corporate Interiors, Religious Design, as well as Urban Planning and Housing.

We offer a benefits package including health, dental, vision and life insurance, medical and dependent care savings accounts, 401 (k) program and paid time off (PTO) program. We are family oriented and offer flexibility.

VPS Architecture is currently seeking a BIM (Revit) Manager/Production Architect to provide BIM management and project execution leadership on a variety of project types.

Duties and Responsibilities:

- Manage BIM (Revit) systems and production staff
- Manage schedules for project execution and completion
- Provide leadership in the set-up and execution of projects where complex, multi-faceted and coordinated architectural work is required for new construction and renovation projects
- Provide technical leadership within a team environment, in collaboration with team members while mentoring junior staff
- Manage a wide variety of project types, scales and complexities
- Develop technical drawings for bid sets
- Develop architectural building details coordinated with other disciplines
- Coordinate project schedules
- Responsible for quality control over BIM (Revit) execution of projects

Job Requirements:

- Bachelor of Architecture or similar degree
- 5+ years of in-depth/advanced working knowledge of current BIM (Revit) versions
- Technical knowledge in architectural detailing of new construction and renovation projects
- Experience in a variety of project types, scales and complexity
- Ability to make jobsite visits, including travel to and from project locations
- Willingness to work additional time when project schedules require
- Possess a positive attitude and willingness to work with others
- Be a self-starter and organized
- Motivated to pursue continued education on BIM (Revit)
