GMB is currently seeking a full time, direct hire **Project Designer.** The Project Designer is responsible for collaborating with the firm’s architects and engineers in all aspects of project design, construction documentation and field observation.

**What it is like to work here:**
We’re unique. Sure, every firm says that, but we know what makes us unique. We constantly develop well-rounded professionals who become the best at what they do. We strive to create an office culture that reflects the rapidly shifting world we live in. We believe we’re located in great cities in one of the best parts of the world.

At our core we deeply value talent development and opportunities for growth. We have always supported an office culture that encourages new employees to become the best professionals in our core markets. Whether you come join us in our Michigan offices of Holland, Grand Rapids and Royal Oak or Indianapolis, Indiana, your opportunities are as limitless as your imagination. Come be a part of designing the future.

Reach out to us and find out more at [www.gmb.com/careers](http://www.gmb.com/careers)

**What you will get to do:**

- Coordinate Architectural design with multidisciplinary project teams
- Participate in the schematic design development phases
- Champion design throughout the project phases
- Participate in project team meetings and attend construction meetings with the client and project manager
- Prepare architectural outline specifications

**What are some of the requirements to work for us?**

- Bachelors or Master’s degree in architecture from an accredited university
- Minimum of 4 years of experience in an Architectural Firm
- Strong design sensitivity and thoroughness in drawing and project organization
- Demonstrated proficiency executing architectural details
- Ability to work independently with minimal supervision
- Proficiency in Revit
- Large project experience required, in the range of $5M to $500M

**What might set you apart from other candidates?**
• Registration is preferred
• LEED Accredited Professional
• Experience with the K-12 Education market is a plus
• Strong knowledge of design, trends, construction methodology, material application, and manufacturer-supplier appropriateness
• Knowledge of architectural building systems, sustainability, integrated design and LEED guidelines
• Familiarity with specification writing
• Proven ability to manage multiple projects/deadlines simultaneously
• Proficiency in CAD, 3D Modeling software, Microsoft Office and Adobe Creative Suite
• Experience in Newforma
• The ability to consult with external clients using excellent teamwork and communication skills

This is a direct hire, full time, permanent position. Salary will be commensurate with experience, including an excellent benefit package. Must have current and continuing right to work in the United States without sponsorship.

All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, sexual orientation, gender identity, national origin or any other status protected by federal, state, or local law.
